

SENATOR CARPENTER: Well the thing that is discouraging to me, that because this body is composed basically of Republicans, you have a lack of confidence in your leadership to the point you want to recommend and condemn him for doing what he is doing to save the people money in this country. I only want to alert you Republicans who in the past, I have been one, had I now been a Republican, I would have certainly opposed doing anything against the leadership of Mr. Nixon.

SPEAKER: Senator Frank Lewis.

SENATOR HASEBROOCK: Well, I appreciate your comments, Senator Carpenter, but I think this is an area that we hope by this sort of action we might be able to get them to take another look at this and unfreeze it.

SPEAKER: Chair recognizes Senator Frank Lewis, then Senator Keyes.

SENATOR LEWIS: I certainly think this is an important issue that we have spoken to before, Mr. President, in regarding impounding of funds that were duly authorized and appropriated and I certainly support Senator Hasebroock and as a side note, I'm looking forward for harmony between Senator Carpenter and his state leader, the Governor of the State, I think they're of the same party.

SPEAKER: Senator Carpenter. For what purpose do you rise, Senator Carpenter?

SENATOR CARPENTER: To answer what the Senator suggested he hoped I would do. I certainly will and I hope that when we pass his budget without any amendments and pass it without any amendments and let the Democratic leader of this State take the full responsibility for operating this State like Mr. Nixon has and I hope that we'll do that because otherwise it would be my opinion and only my opinion that he will line out these items in the budget if we amend his budget and I would hope that if he did, he would not send it back to this body to override his judgment without first a court action and to that extent I back the Governor of the State of Nebraska like I back the Governor, the President of the United States. He said in substance to the Congress and I'm not saying to this body but he said to the Congress, I'm going to get the Congress off your back and their hands out of your pocket and that's exactly what the government of the State of Nebraska apparently is trying to do.

SPEAKER: Chair recognizes Senator Keyes, then Senator Stull, then Senator Syas.

SENATOR KEYES: Mr. President, I want to make a couple of statements. Then I want Senator Hasebroock to comment upon them. The Republican Party, of which I am a member, has usually been conservative. Sometimes we become very liberal if we're spending money that's going to help ourselves. Now the dollar of the United States in Europe has been under pressure so much the last 4 or 5 days that a little government that we set up in Germany has been supporting it at the tune of four billion dollars worth a day, trying to keep this dollar of ours so it's worth something on the trade and then we come along and because the head of this government of our decides that someplace somewhere along the line, the people have got to stop spending or else this dollar of ours is not going to be even worth taking home. We'll bundle it up in a sack and trade it that way. The price of corn for the last 3 days has dropped a maximum on the board. The price of wheat went down the maximum and oats has went down 3¢ a bushel and yet, still this government of ours is forcing all of the grain out on the market, every bit that they can get. The only reason they can't force any beans on the market and have beans go down is because they're sitting out in the field and there is water and snow covering them and they can't get out to get them and so beans are at \$6 and some cents a bushel and corn has went down as much as .25 or .30¢ a bushel and milo has went down .40¢ a
